

# Safeguarding Update

June 2018

Issue 6

**Snapchat** is an app that lets you send a photo, short video or message to your contacts. The 'snap' appears on screen for up to 10 seconds before disappearing, or there is an option to have no time limit. There's also a feature called Snapchat Story that lets you share snaps in a sequence for up to 24 hours. 13 is Snapchat's minimum age

## Is content on Snapchat suitable for children and young people?

We asked parents and young people about the types of inappropriate content they've seen on Snapchat. The level of risk is based on the % of respondents who reported seeing these types of content. The ratings are: Low Risk (less than 5% of respondents); Medium Risk (between 5 and 25%); and High Risk (over 25%, or more than one in four).

Drive SMART is a partnership between Surrey Police and Surrey County Council (including Surrey Fire and Rescue Service), with the aim of reducing road casualties, tackling anti-social driving and making the county's roads safer and less stressful for everyone.

For further information about keeping children safe on and near roads, reporting a concern about the safety of a road and accessing activities for children focussing on how to stay safe on Surrey's roads, please visit: [www.drivesmartsurrey.org.uk](http://www.drivesmartsurrey.org.uk)

You've probably already talked to your child about things like crossing the road safely. Talking to them about staying safe from sexual abuse is just as easy with our PANTS activity pack.

With fun tasks, word searches, games and stickers, you can help them learn without using any scary words.
