

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 27th September 2019

We have had another fun week in school and still managed to do lots of our learning outside despite the changeable weather.

As writers we have continued to use the text 'Whatever Next' as inspiration for our writing. We have been choosing brilliant adjectives to add to our sentences to make them more interesting.

As mathematicians we have been using the language: equal to, more than, less than, most and least to compare numbers. We have used the signs for greater than, less than and equals to and written number statements using these signs.

As scientists we have looked at different materials and used words such as bumpy, smooth and hard to describe them. We then decided what would be the best material for baby bear's hat and why.

As artists we have been using our printing from last week to make a space picture. The children have enjoyed challenging themselves to add new and interesting things to their artwork.

We have spent time this week talking about internet safety in school and the children have signed our internet safety charter which is now displayed in our classrooms.

As always, if you have any questions at all please don't hesitate to pop in and ask us.

Many thanks

The year 1 team.
