

Worpleston Primary School – Weekly Update

Dear Parents / Carers,

4th October 2019

In English this week, we have been looking at explanation texts based on the journey of a river. Our skill focus is using paragraphs and sub headings. Next week we will be tweaking an explanation text about the Water Cycle.

In Maths, we have been focusing on one and two-step word problems to consolidate the children's understanding of place value. Next week we will be recapping and deepening our understanding of column addition including exchanging and problem solving.

We are very much enjoying all the interesting pieces of homework that have been sent in so far! Do not forget the target is 4 completed pieces by the week before half term or more if you wish. We are looking forward to sharing our homework with each other.

Reminders: If you haven't already done so, don't forget to sign up/ respond to/ or book a slot for:

- Parents evening
- Grandparents Day
- PGL

As part of our Grandparents Day, the children will be making 'Harvest Creatures' in class time. We would very much appreciate any donations of natural materials such as leaves, twigs, conkers, acorns etc.

Finally, the following Friday (18th October) it is Nightingales' class assembly. Mr T will send out scripts and further information next week. We hope to see as many of you there as possible.

Kind Regards,

The Year 4 team
