

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

4th October 2019

This week, in maths, the children were taught the formal written method of long division. The children showed excellence resilience during these lessons. Some children have been visiting secondary schools, which is fabulous; however, this has meant they have missed one or two maths lessons this week. As always, the maths homework is consolidation of what we have done in class that week, therefore some children may need more support than usual. If your child is having great difficulty, please encourage your child to speak to their class teacher for more support.

As the temperature drops, please can we remind you that children need to bring a coat into school every day. Furthermore, we are looking for donations for age appropriate books for our book corner. If you have any second hand books, it would be greatly appreciated if you could send them our way. We would like to personalise our book corners by including photos of the children either reading their favourite book or reading in an unusual place. If you have or are able to take photos, of the children doing this, please attach the photo in an email to your child's class teacher.

As a reminder, Year 6 Greek day will take place next Tuesday (8/10/19). We are looking forward to seeing their costumes. Additionally, on Friday 11th October, it is Grandparents Day. As one of our activities on this day, we will be making harvest creatures. In order for this to be successful, we need as many natural resources such as acorns, leaves, twigs, pine cones. If you are able to donate any of these resources, please send them in prior to Grandparents Day.

Thank you for your continued support; we hope you have a lovely weekend.

Miss Hines, Miss Dunne, Mr Clifton and the Year 6 Team.
