

Worpleston Primary School – Weekly Update

Dear Parents / Carers,

Friday 4th October

Another full week in school.

As writers we have used 'Whatever Next' as a spring board for our own stories. We have been choosing brilliant adjectives to add to our sentences to make them more interesting.

As mathematicians we have used number lines to locate numbers and find numbers that are greater and less.

As scientists we have continued to look at different materials and decide what would be best for a space suit and why. We have also searched for these materials around the classroom.

As artists we have looked at the work of Kandinsky and made pictures using circles.

We have sent home your Bug Club log in this week. This is an amazing resource of books and activities tailored to your child's reading level. Please encourage your child to use this at home whenever possible to support their learning in school.

Thank you so much for those who are volunteering to come into school to help us, it is very kind and makes a real difference. If you are available and would be willing to help please do find a member of staff to talk to.

We are really looking forward to all our harvest activities and seeing Grandparents next week.

Many thanks

The year 1 team.
