

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 18th October

The children have had a very busy week and have all been working so hard. We can't quite believe we are almost at half term.

As writers we have continued to use the text 'Man on the Moon' as a basis for our writing. This week we have changed the character in the story from Bob 'the man on the moon' to somebody new. Our focus for our writing has still been to write using capital letters and full stops. As a challenge we have been trying to add an exclamation mark too!

As mathematicians we have been describing the properties of both 2D and 3D shapes and naming them. It would be very helpful for the children to continue to practise the names and properties of these shapes at home.

As scientists we have been looking at different light sources and finding exciting things hiding in our light boxes.

As artists we have collaging, sorting and arranging different materials to make rocket pictures.

As Geographers we have walked around the school and observed physical and human features. We have also looked out of our classroom window to see what features we can spot.

In the inside of your child's reading record you will see a log in for Purple Mash. This is a wonderful resource that you might like to dip into.

2 reminders:

- Don't forget to wear orange next Thursday.
- Don't forget homework, we are looking forward to seeing and talking to the children about their amazing learning and experiences at home.

Many thanks

The year 1 team.
