

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 13th December

Wow! The children did a marvellous job during their performances of 'Humph the Camel' this week. We hope you enjoyed all the singing and dancing as much as we did!

As well as the Christmas play it's been a very busy week in Year One.

As writers we have continued to write information. This week the children have been choosing their own animal to write about. We have used the features of non-fiction texts such as a main heading, sub headings and topic words to write pages to make an information book.

As mathematicians we have been continuing our work on place value. We have been using dienes to make teen numbers and show them using the part whole model. As a challenge we have been finding out what happens if we add a 10 to our teen numbers. We have also used 10p and 1p coins to make the teen numbers.

Learning for Life is a very important part of our curriculum. This week the children have participated in circle time activities about friendships. We also talked to the children about how we might feel when we go onto the stage to perform and ways of overcoming any worries we may have.

Thank you so much to everyone who is continuing to read at home.

We have had a wonderful time this afternoon sharing all the homework the children have brought into school.

Thank for your continued support.

Many thanks

The year 1 team.
