10th March 2020

Dear Parents and Carers,

RE: Year 3 trip to RHS Wisley Gardens. Monday 30th March 2020

As part of their Science unit of Plants, Year 3 will be visiting RHS Wisley Gardens on Monday 30th March. The children will be travelling to Wisley by coach and in groups, they will be participating in a workshop on Sowing and Growing.

We are fortunate to have a world leading Garden on our doorstep and our hope is that this will deepen their learning and give them a richer understanding of plant life and development. See below for more information on the workshop:

Sowing and growing: the magic of seeds

Available all year

Discover the magic of seeds.....

Dissect a bean seed to find out what's happening inside. Learn about seed dispersal by handling native and unusual seeds from around the world. Other activities may include a walk and game for children to discover seed dispersal for themselves. Plant a seed to take home.

Once the children have participated in their workshop, they will then visit the gardens with a view to identifying local plant life.

The children will need to bring in a packed lunch and a water bottle which is refillable. They will be in school uniform but may wear trainers as they will be walking around the gardens. They should also ensure they have a warm, waterproof coat. **The cost for the trip is £5.40 which can be paid via SCOPay.**

If you have any questions about the trip, please contact a member of the Year 3 team. If you are able to help on the day, please let a member of the teaching team know.

Thank you in advance for your support.

Yours sincerely,

Mrs Woodruff, Miss Connor and Miss Bennett.
