

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 24th April 2020

We hope you all had a wonderful Easter break.

Since coming back after the Easter holidays, we have been impressed with how well the children have gone back to completing their learning on google classroom with ease. In maths this week, the children have been learning about line graphs and in English, the lessons have been based around an advert, focussing on persuasive features.

It has been lovely to hear all the positive responses from the children and parents regarding the videos we have been uploading for the children. We will be continuing to do this, as much as we can, to keep some form of personal contact with them.

Please could we remind children, to go back into their assignments to check feedback from their class teacher. If you are using the google classroom app, you are able to receive notifications. However if you are not using the app, you need to go back into the relevant assignment to check.

In addition, please can we also remind children to read the instructions carefully and to do so more than once. We are trying to prepare them for secondary school by ensuring they become more independent.

Thank you for your continued support and as always, if you have any questions, please do not hesitate to contact us via email.
