

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 1st May

After a brilliant first week back since the Easter holidays, the children have not failed to continue to impress us throughout week two. The engagement and effort has been excellent and their work has been uploaded consistently for us to view.

In Maths this week, the children have looked at circles and pie charts. Our maths lessons follow the same structure, as it would be in school. There is a main 'fluency' task, which is followed by 'chilli challenges'. We always provide answers for the children so they can mark as they go. This allows them to spot any mistakes and make corrections if needed, which supports their learning.

In English, the children have designed their own hotel and island as well as creating a travel brochure. Their ideas have been brilliant and we have been thoroughly impressed with the vocabulary used for description.

Here are a few reminders/ tips regarding google classroom:

- Before children click on 'view assignment' they need to make sure they thoroughly read the instructions.
- Children should regularly check the stream for any videos or announcements
- When uploading pictures on google classroom ensure they are clear and in focus
- If you do not have the app, the children need to go back into the assignment to see a reply or comment

Thank you for your continued support.

We hope you are all staying safe and healthy.

Take care,

The Year 6 Team
