

## Worplesdon Primary School – Weekly Update

Thursday 7<sup>th</sup> May 2020

Dear Parents and Carers

We hope you are all well and have enjoyed the home learning activities this week.

We have once again been so impressed with the work the children are uploading, thank you for supporting them so well with this. The use of our writing suitcase tools has been amazing, with sentences like 'After his lovely dinner, he quickly picked up all the caterpillars and ladybugs then ran back inside to go to his cosy bed.' We have also loved seeing all your fantastic art and are very impressed by your drawing skills.

You will have noticed that there is no work set for Friday because it is a bank holiday. The weather looks lovely for Friday so we hope you can enjoy some time outside and have a well-deserved rest.

Thank you to all of you who have given consent for your child to participate in the online google meetings with their class teachers. We are in the process of setting these meetings up and we hope to start some groups next week. Please keep an eye on the steam part of google classroom because this is where we will post the time and date the meetings will be held.

As always if you have any questions or queries please don't hesitate to contact us. It is so wonderful to see how hard the children (and you) are working at home, we are all missing them so much.

Stay safe, stay home

With very best wishes

The Year One Team
