

Worplesdon Primary School – Weekly Update

26.6.20

Dear Parents and Carers of Year 4,

We are at the end of another successful week in Year 4. Once again, we are incredibly impressed by the standard of work being achieved by the children at school and at home. Thank you for your continued support. We are very aware that as the weeks go on, some children are finding it hard to remain motivated. Hopefully with the introduction of some live lessons and fun challenges we can help to counter this. Please email one of us if your child is struggling.

In addition, if you are handing work in after the day it is set please could you put in a private comment. This will generate an email so that the teachers will know that it has been handed in and we can then give feedback.

In English this week, we have been enjoying reading the children's tweaked versions of the story. Next week we are writing our own version of Embarked. In the new version, we will be changing the item that is left behind, where it was left behind and what happens in the story. Our focus is still simple, compound and complex sentences.

In Maths, the investigations about coordinates have gone well. We are moving onto our consolidation work. Our first mini topic will be division, fractions and decimals. The lessons will involve recapping previously taught concepts and then some problem solving activities.

There are one or two art/DT projects coming up that require a couple of resources:

- Some pictures from magazines of faces.
- A shoe box or cereal box.

If your child's PE bag was left in school when the school closed, please make sure it is collected before the end of term.

Our live lessons this week will be on the following days and times:

- Tuesday 30th June - Art at 2 pm
- Thursday 2nd July - Maths at 10:15 am
- Friday 3rd July - Maths at 1:10 pm

Please keep the photos of extra activities coming in! It is lovely to see what the children have been up to!

Kind Regards,

The Year 4 team
