

## Worplesdon Primary School – Weekly Update

Friday 9<sup>th</sup> October

Dear Parents / Carers,

Hasn't the time flown by! As we finish the last full week of the half term, we are simply amazed at how much the children have flourished since being back at Worplesdon.

In maths this week, the children moved on to the long method of division. While this can be a challenging method, we continue to be impressed with the children's resilient approach to their learning.

In English, we have continued our work based on Perseus and Medusa and this week the children created a new monster to describe in a tweak to their story. Their writing really is coming on beautifully, particularly with how accurate their sentence structure is.

In art, the children's masks are nearly complete and next week we will be adding some finishing touches before evaluating them.

Thank you for continuing to send children in with a spare pair of shoes so we can continue to use the outdoor spaces, even as the weather deteriorates. The children are more than welcome to leave them in school on their pegs in a labelled carrier bag, or take them home in their bags each night.

We look forward to seeing you at our virtual parents evening next week. Please do let us know if there is anything specific you would like to discuss in advance.

Finally, secondary school applications close on 31<sup>st</sup> October so please make sure that you have completed and submitted these online with Surrey County Council by then.

Wishing you a wonderful weekend,

Mr Clifton, Miss Dunne and Mr Djadali
