

Worplesdon Primary School – Weekly Update

8.1.21

Dear Parents and Carers of Year 4,

We have had a brilliant first week both in the school bubbles and at home! We have been very impressed with how well the children have settled into the new routines.

Our focus for English is fronted adverbials based on a book by Chris Hadfield. This week we have been rewriting a diary entry based on his launch to the International Space Station. Next week we will be tweaking his account.

In Maths our focus has been multiplying by 4 and 8. Next week we are going to be using our knowledge of multiplication tables to carry out short multiplication (a formal written method). There will be videos to support with this.

We will be setting up Google Meets very shortly and hope that all the children at home will be able to join in. The times and links will be posted on the stream.

We have decided to postpone our Chariot making DT activity until we are back in school as we have all the resources here. If the children had decided to make one at home as well, that is fine and we would love to see a picture!

Please remember that when your child 'hands in' a piece of work on Google Classroom to make a comment as that alerts us to it. Thank you.

Please don't hesitate to contact any of us if you have any questions but please keep in mind that we are all working our full hours in school so may not be able to respond immediately.

Kind Regards,

The Year 4 Team.
