

## Worplesdon Primary School – Weekly Update

22.1.21

Dear Parents and Carers of Year 4,

We wanted to begin by saying how amazing all the children are being in this very challenging situation. We are very proud of their resilience and perseverance.

The children at school in the bubbles are working really hard and have adapted again to the new routines. Everyone at home has been doing so well with the home learning. It can be challenging for all, especially with new concepts, but we have been very impressed with the standard of work that is being handed in. Please remember that each task should only take **a maximum of 45 minutes**. If your child has not completed the task that is absolutely fine, just send us a comment. If you are completely stuck on a task we are available to answer questions by email, or just spend the time doing some Times Tables practise or writing about a subject that appeals to your child.

We are going to be starting Guided Reading next week, meeting in classes with a different group each day at 1.30. We are using Bug Club for this and an explanation video has been put on the stream.

In English this week, we have written our own space stories, we have enjoyed reading all the different adventures!

Next week, we are starting our new text 'Can You Catch a Mermaid.' Our skills focus is using the present perfect tense. There will be live lessons and pre-recorded videos to support with this grammar skill.

In Maths, we have working on our division skills this week. Next week we are doing some problem solving before moving onto Area.

For your Art task next week each child will need half of a picture from a magazine or printed from the internet (A4 size is perfect!) We will be drawing the other half!

We would like to wish you all an enjoyable weekend, we are looking forward to seeing you all in 'live lessons' next week, stay safe!

Kind regards,

The Year 4 Team.
