

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 17th September

This week, in Science we conducted a science investigation around our topic 'Solids, Liquids and Gases'. It involved discovering whether gases weigh anything and we used fizzy drinks to find out. The children were thoroughly engaged and became enthusiastic scientists.

As artists this week, the children explored two contrasting artists and used their work as inspiration to create their own individual artwork. We were very impressed with the level of curiosity and creativity the children demonstrated.

The 'Autumn Homework Passport' has now been uploaded onto Google Classroom. We will be discussing this with the children on Monday. They will receive a homework passport once every term and will need to complete 6 activities before the final week of term – dates are provided on the passport. If you would like a paper copy, send your child's class teacher an email and we will send one home.

In addition, we are using reading diaries again and we will be checking these every Wednesday. It would really help if you can continue to encourage your children to do four reads a week. You or your child can record this in their reading diary.

It has been excellent to receive all your emails. Please could we ask that if your child is in Woodpeckers that you email both Mrs Carey and Mrs Nightingale so they can both be informed. This just ensures that any enquiries you have are dealt with as swiftly as possible.

Thank you for your continued support; we hope you have a wonderful weekend.

The Year 4 Team
