

## Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 10<sup>th</sup> December

This week has been festive with Christmas jumper day, watching the Year 2 nativity and the children even got to watch a virtual pantomime! We are definitely feeling the Christmas spirit and are looking forward to next week where we have even more exciting things in store for the children.

The children have really impressed us this week with their creation of their very own adventure stories. Across the classes, we have seen some fantastic writing where their imaginations have come to life.

Next Tuesday is our Carol Concert. It is due to start with musicians at approximately 3.45 and then the children will sing from 4pm. We welcome parents and would love you to join in. The words will be sent out via parentmail and can be accessed on your phones, so you can join in with the singing. As it will be dark by the time it has finished, **children must be collected from the school playground**. If your child will be picked anyone other than who usually picks them up, please let your child's teacher know.

In the Spring term we will be doing an art project with a charity called Delight who work in co-ordination with Watts Gallery. Our project is called 'Rainforest Retreat' and we will be exploring a range of art activities linked to this. Before our project fully starts, we have a workshop lead by Watts Gallery next week. This will include a virtual tour of the gallery and a few practical activities.

On the last day of term, the children are going to be making a little sweet surprise to bring home as a gift for the family. To do this, we need to do lots of mixing. We will be very grateful if the children could bring in a spoon to do this with (preferably a tea spoon). These will be returned back home on the last day after use. We will also be having a Christmas party on the final day so the children can bring in some Christmas accessories to wear for this.

Finally, next week we will be sharing work from our homework passports. The homework passport is on google classroom – the children can hand in their work on google classroom or if they prefer they can bring their work into school.

Thank you for your continued support.

The Year 4 Team
