

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 14th November

What an exciting week we have had in Year 4 from amazing art projects to fantastic learning all about space!

The children have loved starting our Rainforest Retreat and they have been creating some beautiful artwork that will be displayed in the classrooms. This project will continue over the next few weeks and they are so excited to work with lots of different types of art to represent different parts of the rainforest.

We have been having some fantastic discussions about space this week. In English, we are writing as an astronaut that is about to go up to the International Space Station. The children were so excited to watch Tim Peake talk about his experience and they have produced some fantastic writing with a focus on fronted adverbials.

In History, we have also been learning all about space travel. The children have been researching all about the History of space and they will be creating a leaflet next week about what they have found out. We are really excited to see the lovely leaflets that they create.

Just a reminder that Woodpeckers class assembly is next Friday 21st January at 2:40pm all about rivers. Please walk down the main drive and into the back of the hall. It is one parent/family member per child and the gates will open at 2:30pm. Yesterday, the children went home with a note detailing what we would like them to wear for the assembly along with any lines they have chosen to say. If you have any questions, please let Mrs Nightingale know. We look forward to performing to you.

The Spring Homework Passport is now up on Google classroom for the children to begin completing for this term. We ask that the children complete at least 6 activities of their choice from the passport. We will be sharing the activities that they have chosen in class on the week commencing 28th March so we ask that any evidence is uploaded to Google classroom or brought into class before this date. We look forward to seeing what you get up to!

Thank you for your continued support,

The Year 4 Team
