

Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 18th March

Another busy week in Year 4! The children have had a fantastic week filled with lots of activities for Comic Relief. The children enjoyed wacky races yesterday and it was lovely to see all of them getting involved in some way. We have been so impressed by the creativity that has been displayed with the Red Nose habitat competition. Every habitat that was created was unique and we loved to see how engaged the children were with their creations.

This week and next week, we are taking part in an in-class Spelling bee. All of the children get to enjoy lots of activities from boggle to who wants to be a millionaire.

Please can you make sure you have completed your child's medical form for the residential.

Just a reminder, homework passports will be shared in class at the end of the last week of term which is the week commencing the 28th March. Please make sure that the children have uploaded their work to Google classroom, or that they have brought in anything they wish to share before this date. We look forward to seeing all of the lovely homework they have been up to.

As you know, our production of 'Treasure Island' is fast approaching. Please can you make sure that the children bring in their costumes next week. If you have any questions about costumes, please contact your class teacher.

Due to the covid restrictions lifting, we are luckily now able to have parent helpers in to help us in school. If this is something you would like to do, please contact the office and they will be able to get a DBS check done for you before you can come into the school to help.

We also wanted to say a massive thank you to anyone who has donated items for us to use in our production. We really appreciate this and we have found a use for everything that has been brought in.

Thank you for your continued support,

The Year 4 Team
