

## Worplesdon Primary School – Weekly Update

Dear Parents / Carers,

Friday 7<sup>th</sup> October

It has been another busy week in Year 3, from learning about Rodger Rock to learning about how mighty mountains are formed!

This week we started our new unit of English based on the text 'Captain Flinn and the Pirate Dinosaurs' with a focus on prepositions. The children have thoroughly enjoyed this story and it has been a pleasure to read their retelling of the story. Next week, we will be changing some of the characters.

In maths, we have continued with addition and subtraction involving exchanging. The children have used manipulatives such as counters to help them understand. We will be moving onto using the column method next week.

The children have been so excited to receive rewards for their reads. Please can you continue to read with them at least four times a week. The more reads, the more house points! If anyone is interested in volunteering their time to listen to children read across the year group we would be very grateful. Please speak to your child's class teacher.

### **Homework Passport**

The children have been given their homework passport for the Autumn Term which has also been uploaded on Google Classroom. They are encouraged to complete at least 6 activities which are due the week commencing 12<sup>th</sup> December. Work can be uploaded onto google classroom in any form such as pictures and videos. In addition, children are able to bring things into school but we ask that these do not come to school until the 12<sup>th</sup> December. If you have any questions, please speak to your child's class teacher.

Thank you for your continued support and we hope you have a great weekend.

The Year 3 Team
