

# Geography: Maps – Spring 2

## Aerial view

**aerial view:** view of a place from above

## Countries of the UK

Northern Ireland

Wales

Scotland

England

## Key Vocabulary

**UK – United Kingdom:**

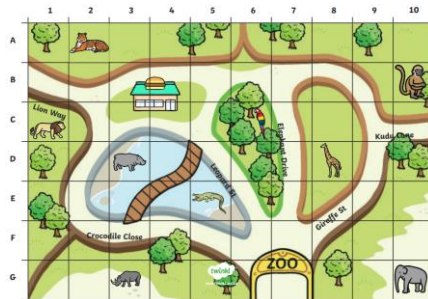

4 countries make up the UK

**Map:** Maps can be drawings or models. They can help you find where you are and where you are going.

**Physical features:** Things made by nature.

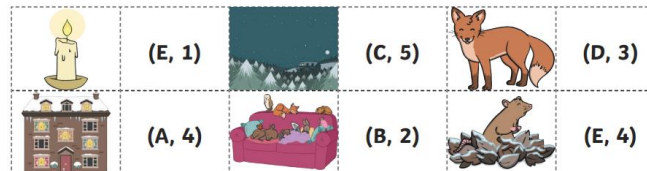

**Human features:** Things made by humans.

## Grid lines

Grid lines are lines across and top to bottom on a map. They are used to make squares. We can locate things on a map by saying which square they are in.

## Grid references and keys

Grid references show which square the object goes in on a map.

The key gives us this information.

## Previous Knowledge – continents, oceans, world, globe, atlas
